

Gaurav Asodariya

Full Stack Developer | MERN Stack

gauravasodariya44@gmail.com | [+91 8799300210](tel:+918799300210) | [LinkedIn](#) | [GitHub](#)

Education

MSc IT - Dhirubhai Ambani University <i>CPI: 7.10</i>	2024 - 2026 Gandhinagar, Gujarat
BCA - Somlali Institute of Computer Applications <i>CPI: 8.29</i>	2021 - 2024 Ahmedabad, Gujarat
12th - Shree Swaminarayan Gurukul (GHSEB) <i>Percentage : 82.85</i>	2020 - 2021 Amreli, Gujarat
10th - Shree Swaminarayan Gurukul (GSEB) <i>Percentage : 78.66</i>	2018 - 2019 Amreli, Gujarat

Experience

Crinet Technologies <i>Software Developer Intern</i>	January 2026 - June 2026 Ahmedabad, Gujarat
- Developed responsive frontend components and integrated backend REST APIs in a MERN-based application, improving user experience and reducing page load time by 30%. - Designed and implemented MongoDB schemas and scalable backend APIs using Node.js and Express.js, improving system performance by 25% and enhancing reliability.	

Projects

AI-Powered Job Matching Platform <i>React.js, Node.js, MongoDB, OpenAI API, AWS</i>	GitHub
- Engineered an AI-powered job matching system that matches candidates with jobs based on skills and context (not just keywords), enhancing recommendation accuracy. - Developed a resume parsing, skill extraction, and match-scoring system, along with secure role-based dashboards for job seekers and recruiters, and automated candidate evaluation.	
Annasetu <i>React.js, Node.js, Express.js, MongoDB, JWT</i>	GitHub
- Built a scalable donation management platform enabling seamless collaboration between NGOs, donors, and volunteers with secure role-based access control. - Implemented secure role-based access control and REST APIs for request handling, scheduling, and tracking, improving system reliability and reducing manual effort.	

Technical Skills

Languages: C++, JavaScript, SQL
Frontend: React.js, Tailwind CSS, HTML, CSS
Backend: Node.js, Express.js
Databases: MongoDB, MySQL, PostgreSQL
AI/ML: Gemini API, NLP Basics
Cloud & Tools: AWS, Git, Postman, Vercel
Core CS: Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks

Achievements

- Built AI-powered full-stack web applications using MERN and OpenAI APIs, delivering scalable and production-ready solutions.
- Solved over 500 DSA problems on LeetCode, improving algorithmic thinking and problem-solving skills.
- Gained hands-on experience in building and optimizing real-world applications during a Software Developer Internship at Crinet Technologies, improving system efficiency.
- Managed hostel operations and coordinated student activities, demonstrating leadership, teamwork, and organizational skills.
